Weight vs. checkability (i): CS/stacked on deck sample, imputation on droppers
A: CS (simple)
ATT=0.045 untestable wt=0.35 rho(w,pre_g)=-0.78
B: stacked (R2 FE)
ATT=-0.099 untestable wt=0.06 rho(w,pre_g)=0.22
C: imputation (BJS)
ATT=-0.047 untestable wt=0.32 rho(w,pre_g)=-0.85
